Note: The Current contract period covers on-going systems maintenance and upgrades to existing systems.

System Requirements:

The contractor furnishes Nortel digital key systems of sufficient size and expansion capability to meet or exceed the requirements of all of the systems (A, B, C, and D) specified below:

<u>System Size</u>	<u>Lines Equipped</u>	<u>Capacity</u>	<u>Stations Equipped</u>	<u>Capacity</u>
A	2	4	4	12
B	4	8	12	24
C	8	16	24	120
D	16	32	120	192

“Equipped” shall be defined as “installed and working”; “capacity” shall be defined as “system can grow with minor modifications such as the addition of circuits packs/cards” and station equipment.

Attendant Consoles: System A shall, upon the request of the ordering agency, be equipped with an attendant console. System A should not include the expense of an attendant console. Systems B, C, and D shall be equipped with an attendant console. Busy lamp field features and direct station selection options, for all stations in the equipped category, should be included in the system, and work with the attendant consoles.

Each system will be able to grow to the next larger sized system using the same telephone instruments. All systems must be from the same manufacturer and modular in design. The systems will have the means to grow system sizes B, C, and D to capacity without replacing the key service unit.

Guaranteed Installation Completion Dates:

- System A: 15 days ARO
- System B: 15 days ARO
- System C: 30 days ARO
- System D: 30 days ARO

Maintenance:

Standard service shall include preventive and remedial maintenance as well as all parts and labor.

The contractor must respond and provide repair services in an emergency situation within three (3) hours, 24 hour per day, 7 day per week (including holidays) for any state facilities that operate as normal business 24 hours per day to include, but not be limited to, the Missouri State Highway Patrol, Department of Corrections, Department of Mental Health, and Department of Social Services residential facilities.

Response time shall be defined as (1) providing an effective response from a qualified technician using remote access within one half hour and/or (2) providing for the physical dispatch of a qualified technician within one hour and the technician on site at the calling agency's location within 3 hours from the time when a call for service is placed by a state agency.

If the problem cannot be resolved by remote access, the technician must be on site within 3 hours from the time when a call for service is placed.

The contractor must provide emergency maintenance response within four (4) hours, 9 hours per day, 5 day per week (excluding holidays) for all other agencies.

An emergency shall be considered to exist when one or more of the following conditions exist:

- Twenty five percent (25%) or more of trunks, lines and/or stations are inoperative. Inoperative shall be defined as the inability to either originate or receive calls.
- Any attendant position is incapable of either answering or extending calls.

- Any station(s) specifically designated by any hospital, correctional or public safety agency prior to system cutover as critical to safety are not acceptable, not to exceed five percent (5%) of the total number of stations.
- Eighty five percent (85%) of all other out-of-service trouble reports in any month not requiring unusual repair shall be corrected within one working day from the time the report is received by the contractor.

If response time guarantees are not met, the state agency may deduct \$25 per hour from the maintenance cost.

The contractor must provide additional support services for hardware trouble shooting purposes.

The contractor must respond to all requests for adds, moves, and changes in a timely manner.

The contractor must maintain written assurance of continuing engineering, spare parts, and back up support from the equipment manufacturer.

The State of Missouri reserves the right to cancel maintenance on any or all of the item(s) with 30 days prior written notice to the contractor.

Single Point of Contact:

Convergent Communications shall be the single point of contact for all contract matters.

Warranty:

New systems acquired under the contract will have a three-year warranty.
